

## ***“Safety, Service and Care”***

### **ENVIRONMENTAL POLICY – ISO 14001**

- Chemical Care implements an Environmental Policy that covers all company activities and sites within New Zealand and will be reviewed annually.
- Chemical Care is committed to complying with all required current and progressive national and international environmental regulations and standards through the following:
  - Commit managerial resources to implement the Environmental Policy by introducing an effective management control system
  - Seek to reuse, recycle and recover raw materials and waste wherever possible.
  - Seek to conserve scarce and non-renewable resources, such as energy, in our operations.
  - Maintain the highest degree of control over emissions and discharges of materials to the environment and thus continually improve our performance where economically viable.
  - Continual attention to the safety of local residents and local ecology.
  - Work with and assist suppliers and contractors to achieve environmental standards that comply with the Company’s policy and regulations.
  - Monitor and report progress against agreed objectives, ensuring all reports are available on request.
  - Conduct audits of procedures and practice and respond with a planned program of any required remedial action.
  - Commit to continual improvement of all relevant environmental compliance and protection.
  - Ensure that our staff carryout their duties in line with the above statement and, are aware of their obligations.
  - Set and review this policy and objectives annually
